Fire Safety & Prevention (Including Evacuation Procedures)

Overview

Fire is one of the most serious risks in any workplace. This seminar provides employees with the knowledge and skills to prevent fires, respond effectively, and follow evacuation procedures. Participants will learn about fire causes, detection methods, extinguishing techniques, and practical use of firefighting equipment. The session also emphasises prevention strategies, housekeeping, and safe evacuation practices.

Key Objectives

By the end of this seminar, participants will be able to:

- Identify common causes of workplace fires and how to prevent them.
- Understand fire behaviour through the fire triangle and fire classifications.
- Apply correct firefighting methods including safe extinguisher use.
- Follow evacuation procedures to ensure safety in an emergency.

Value Add

This seminar combines fire prevention knowledge, hands-on extinguisher use, and evacuation procedures, ensuring employees are confident to act safely in emergencies.

Who should attend?

This seminar is ideal for:

- All employees across departments
- Fire marshals and safety representatives
- Supervisors and team leaders
- Health & Safety officers
- Anyone involved in workplace emergency procedures

This seminar consists of the following 15 topics

Topic 1	Common causes of workplace fires
Topic 2	Fire detection systems and early warning
Topic 3	Methods of extinguishing a fire
Topic 4	Understanding the fire triangle
Topic 5	Measures to prevent fires
Topic 6	General housekeeping guidelines for fire safety
Topic 7	Safe storage practices to reduce fire risk
Topic 8	Fire classifications (A, B, C, D, F)
Topic 9	Procedures for fighting a fire safely
Topic 10	Maintenance of firefighting equipment
Topic 11	General workplace fire precautions
Topic 12	Operating a fire extinguisher (PASS method)
Topic 13	Fire prevention strategies for the workplace
Topic 14	Evacuation procedures: do's and don'ts
Topic 15	Building a fire safety culture in the workplace
