Stacking & Storage

Overview

Safe stacking and storage are essential to prevent workplace accidents, protect assets, and ensure compliance with the Occupational Health & Safety (OHS) Act. This seminar provides practical guidance on safe practices, risk control, and fire prevention. Participants will gain tools to improve safety, efficiency, and compliance in warehouses, manufacturing, and operations environments.

Key Objectives

By the end of this seminar, participants will be able to:

- Understand OHS Act requirements for stacking and storage compliance.
- Apply safe stacking and storage principles across people, materials, machinery, equipment, and the environment.
- Identify hazards and risks such as unsafe stacking heights, poor ergonomics, fire hazards, and ineffective housekeeping.
- Implement inspections, preventative actions, and fire safety measures to strengthen workplace safety culture.

Value Added

This seminar combines compliance knowledge with practical tools, case examples, and actionable strategies to minimise accidents, improve workflow, and build a safer, more efficient workplace.

Who should attend?

This seminar is ideal for:

- Warehouse & logistics staff
- Manufacturing & operations teams
- Supervisors & team leaders
- Safety officers & compliance managers
- Anyone responsible for handling, stacking, or storing materials/equipment

This seminar consists of the following 15 topics

Topic 1	Legal requirements (OHS Act)
Topic 2	Core principles of safe stacking & storage
Topic 3	Roles & responsibilities of people in safe stacking
Topic 4	Materials handling standards and practices
Topic 5	Machinery & equipment considerations
Topic 6	Environmental conditions affecting storage
Topic 7	Factors influencing safe stacking height
Topic 8	Ergonomics in stacking & lifting
Topic 9	Safe stacking & storage rules & procedures
Topic 10	Workplace inspections & reporting methods
Topic 11	Preventative measures to reduce risks
Topic 12	Corrective actions for unsafe practices
Topic 13	Fire safety & emergency prevention
Topic 14	Housekeeping practices: daily & shift-end routines
Topic 15	Risk management tools (Terminate, Transfer, Treat, Tolerate)

Additional Information

Duration	3-Hour Seminar	
Includes	• Seminar notes • Refreshments (not applicable to on-site / online training)	• Free telephonic after-training support • Electronic Attendance Certificate

PST Training (Pty) Ltd has been assessed and accredited as having satisfactorily met the MICT ETQA Specified Training Provider criteria. It provides an accepted benchmark of knowledge and skills, ensuring specified levels of competency and ability in terms of industry standards. Accreditation Number - ACC/2007/02/603.
